COVID-19 Clinical Safety Guidelines

Tiered Office Protection Plan

Three-tiered plan designed to limit invasiveness while maximizing safety for client and clinician

Open & Close

TIER 1

Terminal Clean

Between Clients

TIER 2

Station Clean

Sterile Field

TIER 3

Sterilization

- Sanitize high traffic areas in waiting and check-in locations.
- Sanitize all surfaces in office that clients interact with.
- Sanitize all surfaces of workstation that client and/or clinician interact with.
- Wash hands and/or use hand sanitizer.
- Retrieve and/or dispose of session materials.
- Prepare all electrodes and put drops of gel on cotton balls.
- Place prepared training accessories on sanitary tissue, towel, or tray.
